ANNUAL REPORT
2025

A Message from our CEO

An impact report is a way for our organization to communicate how we are trying to improve rural communities, as well as our progress. AVV Health Centers strives to measure our impact on the communities we service and our patient's lives, focusing on their physical and mental health.

AVV Health Centers, INC History

AVV Health Centers was established in 2005 as a 501 c3 non-profit organization and became a federally qualified health center (FQHC) in 2009. We have grown to four locations and a mobile health care unit. AVV Health Centers serve Porter, Muskogee, Coweta and the surrounding areas. We currently have 9 medical providers and 2 licensed professional counselors.

Our Mission & 2025 Impact

MISSION

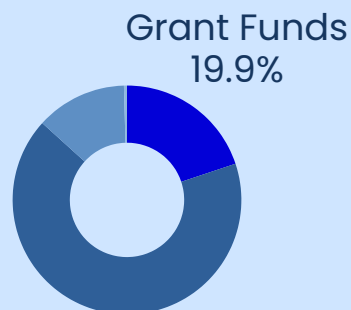

AVV Health Centers promotes healthier Lifestyles by Providing Quality, Compassionate, Affordable healthcare and health education services to all.

Vision

To provide accessible, quality, affordable, dependable medical, mental health, and X-Ray services to our community in state-of-the-art facilities with on-site urgent care and transportation.

2025 Total Income
\$6,996,427

- Grant Funds
- Patient Revenue
- 340B Revenue

Patient Revenue
66.8%

2025 Success

Behavioral Health Growth

AVV Health Centers expanded its Behavioral Health team by adding a third counselor who specializes in pediatric patients. This addition has increased access to mental health services for children and adolescents, reducing wait times and helping families receive care sooner.

Healthy Eating class

AVV Health Centers' Administrative Team had the opportunity to participate in Little Peaches n Pirates Daycare's Healthy Eating Class, where they engaged with children and encouraged them to explore a variety of fruits and vegetables. This interactive experience helped promote healthy eating habits at an early age while making nutrition education fun and engaging for the children.

AVVHC Backpack drive

AVV Health Centers organized a community backpack and school supply drive to support students and families throughout our service area. Through the generosity of staff and community members, backpacks and essential school supplies were collected and distributed to local schools, helping students start the school year prepared and ready to learn.

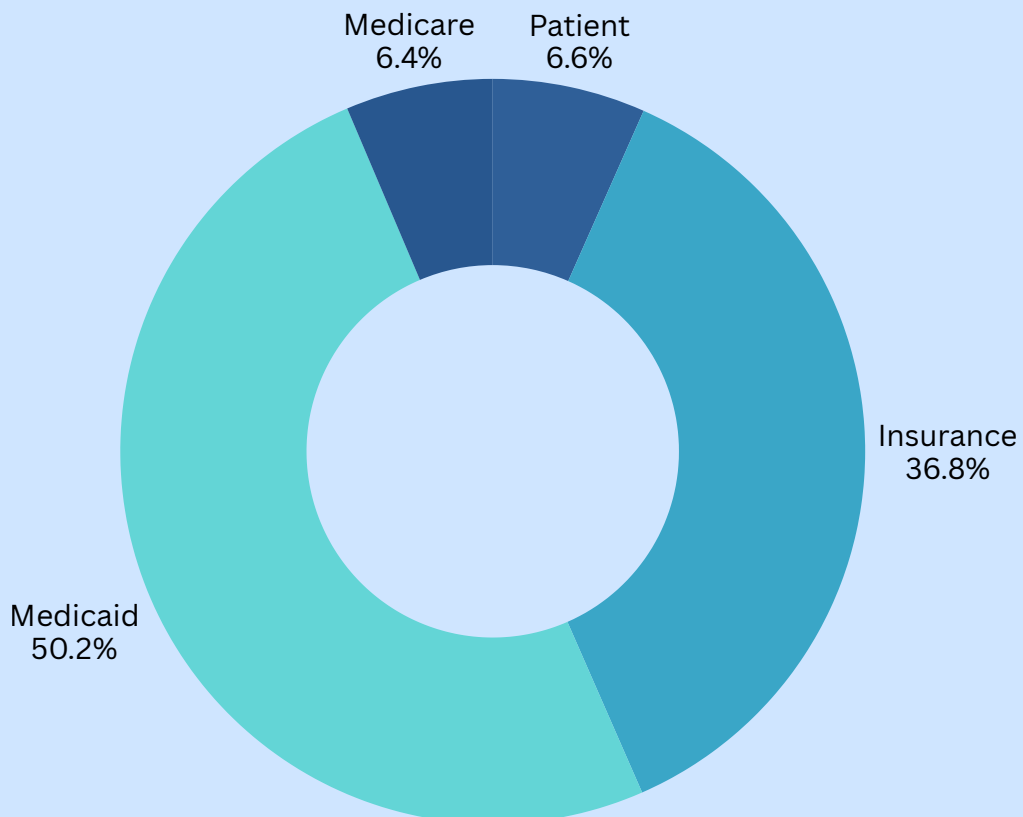

Who We Serve

Patients Reported by Race Ethnicity

White	3,806
Black/African American	731
Hispanic	979
American Indian/Alaska Native	685
Asian	65
